The Whig State Convention assembles at Syracuse to-day to nominate a State Ticket, to be supported at the ensuing election. It will be seen by our dispatches from Syracuse that Hen. Washington HUNT of Niagara, the present able Controljer of the State, will probably be chosen by acclamation as the candidate for Governor. The Convention could hardly have chosen a more worthy standard bearer.

THE GALPHIN CASE.-We hope none of our readers will fail to examine the able and conclusive review by Controller WHIT-TLESEY, of the Galphin Interest Swindle, which we publish on the first page of today's Tribune.

In Congress, Yesterday.

The SENATE took up the Joint Resolutions from the House, authorizing the President to commence suit against Mr. Crawford for the recovery of the Galphin interest, and after a long discussion in which Messrs. Dawson, Turney, Ewing, and Butler participated, the Resolution was laid on the table, 27 to 25. The bills for the establishment of Collection Districts in California, to make temporary provision for the working of the mines, and for preserving order in the mining districts, were passed. The Senate took up the Indian Appropriation Bill, adopted several amendments, and at 4 o'clock took a recess without disposing of the bill.

In the House the Senate bili providing for the addition of four Commissaries to the army was passed with amendment The bill amending the act providing for the better security of the lives of passengers on board American steamboats was also passed. The bill requires that every steamboat be well supplied with life boats-prescribes the number of passengers according to the dimensions of the boat-requires a life preserver for each passenger, to be furnished by the boat owners, and to be always in readiness for use; and provides that no combustible materials be carried as freight that the boilers be examined once in six months, &c. Something of this kind is absolutely necessary. The number of lives lost by steamboat disasters during the present season is quite appalling.

The Army Appropriation bill was taken up and an amendment to pay the officers mileage according to the usually traveled route instead of the direct route was lost .-Good. An amendment was adopted appropriating \$10,000 for the purchase of a burying ground for Americans at the City of Mexico. A wrangling debate sprung up, in which several members participated, as to whether the Whigs or the Opposition are responsible for the squandering of the public money, and the general mismangement of Public Affairs, greatly to the edification and benefit of the 'dear people,' no doubt. Sandry motions were made that the Committee rise, when the said Committee would find itself without a quorum, by reason of the Op. position members refusing to vote. Great disorder and uproar prevailed for two or three hours amid calls to order, motions to rise, &c. when at 9 o'clock the Committee rose and the House adjourned without having made any considerable progress in the bill. The people will perhaps remember at the Polls who they are who thus trifle with the public weal.

South-Western New-York-Free Schools-Sons of Temperance.

Editorial Correspondence.

Owngo, Tiogn Co. N. Y. Sapt. 25, 1830 I have been looking for the last two days through the South-Western Counties, formerly composing the seeluded region of our State. The change wrought throughout this region by the Eric Railroad is all but magical. All the villages are growing rapidly, Elmira probably the most; while Binghamton, Owego, Waverly (or Factoryville), where the Road leaves the main stream of the Susquehanna, and Jefferson are fast rising in business and importance. No part of the country can now be more flourishing than the Counties of Broome, Tioga and Chemung, while those further West are beginning to feel the impetus soon

to reach the shore of Lake Erie. The Free School Meetings I have attended at Jefferson and this place strengthen my conviction that the Country will stand with the Cities on the side of Education Free to All. If any County gives a majority for Repeal, it will be one not fairly canvassed by the friends of Free Schools Wherever the truth has been or shall be fairly exhibited, there will be a decided majority for Free Schools. The opposition has been as neisy and violent in this region as anywhere, yet I believe both Counties will give a majority the right way.

I rode ten miles north of this place yes. terday, through the valley of Owego Creek, to attend a gathering of the Sons of Temperance at West-Newark, Tioga Co. The attendance was large-at least 1,500 beside outsiders-and the feeling evinced most sat. isfactory. The friends of Temperance are in earnest, and every new demonstration shows them more and more engaged in the cause.

I never passed through a finer valley than that of the Owego Creek-broad, smooth and fertile, and with a wealth of orchard and grass such as is rarely seen. So uni. formly fine a growth of Apple-trees cannot often be found, and they are generally loaded to the earth. All through this region Apples are very abundant. There has been

no frost yet to hurt anything, and most of the Corn is out of the way. The yield has not been very heavy. Buckwheat is abundant and pretty good. H. G.

The Otsego Democrat (Burner) puts up the Seymour ticket, but is not so sure about the Seymour Convention Resolutions.

"As to the platform of principles adopted in the form of resolutions, we choose to wait and see in what sense they are meant and understood by

those who adopted them.
"It seems to us that adopting the resolutions of the National Conventions of 1840, 1844 and 1848, is vague, and in many respects unmeaning and in-

appropriate.

"If all questions relative to Slavery are settled, and Freedom secured to all our Territories, not included within States, and the slaveholders attempt to admit no more Slave States, and the entire Democracy are hereafter to go for abolishing Slavery and the Slave Trade in the District of Columbia, and wherever Congress has jurisdiction, we are severalled of it." very glad of it.

UNIVERSITY OF ROCHESTER.-We are pleased to see that a noble effort is being made by the Baptist Dependention to do their share of the Col legiste Education of the State. The position they has no superior in the State of New York. Roch ester is a rural, beautiful and growing city. It is natural center for the large section between Syracuse and Buffalo. Its surroundings are filled with an enterprising and intelligent farming population-Its citizens are mainly of New England descent and favorable of course to education. The interest of the county in which Rochester is situated, has been expressed by a subscription from parties entirely responsible, amounting to about seventy five thousand dollars Fifty thousand dollars is ex pected from New-York and Brooklyn. From what we know of the enterprise and pecuniary ability of Baptists in this city and vicinity, we think this sum will be easily and speedily secured, and a great and useful institution of learning be given to the western section of the State by a body of Christians who have hitherto been somewhat delinquent in this department of Christian benevo lerce. The friends of the University hold a moet ing this evening at 74 o'clock in the Oliver-Street Church. We hope it may be well attended.

Disaster on the Eric Railroad -A Life

Lost.

[Editorial Correspondence-Per Telegraph.]
Owego, Tioga Co., N.Y., Wedresday, Sept. 25.
The night train of the Eric Railroad going down last night, ran off the track about two miles east of this village, between 9 and 10 o'clock, whereby the baggage, express, and one passenger car, were precipitated down a bank about 15 feet high.

The baggage and express cars were nearly destroyed, the others considerably injured. One woman, Mrs. Samuel Kendrick English), from Rochester, was killed on the spot. Mr. S. Ingraham of Buffalo was severely injured-it is hoped not danger-Mr. Thos. Johnson of Binghamton, a clerk on the road, was badly hart-it is feared fatally. Mr. Abraham Teachman of Bath, Steuben Co. and two or three others, were slightly hurt.

This accident was caused by the train running over a cow lying on the track, though how she got there is a puzzle, as the road was well fenced and provided with cattle guards for three miles each way from the scene of the disaster. tender did not run off and escaped uninjured. The loss of property is probably about three thousand dollars. I do not see that any one can be blamed for the disaster.

The Whig State Convention.

About 100 Delegates have alreay assembled; twenty more will be in by to-morrow morning. The Delegates will meet informally and by themselves in half an hour, for the purpose of consultation, and to settle, if practicable, the three contested seats from the City. I think they will all be adjusted to-night.

Hop. Francis Granger will probably be the permanent President of the Convention. Hon. WASHINGTON HUNT will be nominated for Governor by acclamation. There are four candidates for Lieut. Governor. Probably Anos K. Hadley of Troy will lead

on the first ballot. I think new men will be taken up for Canal Commissioner and Prison Inspector. The resolutions will be strong, clear and decided. All looks well. H. G.
